

Elkhart Tri-Went Industrial Acquires Custom Tube Products, Expanding Capabilities and Market Reach

Geneva, IN — September 12, 2025. Elkhart Tri-Went Industrial (ETI), a leading manufacturer of precision tubing and metal fabrication solutions, is proud to announce the acquisition of Custom Tube Products, a respected provider of specialized tube bending and fabrication services based in Edgewater, FL.

This acquisition marks a significant milestone in ETI's growth strategy, enhancing its technical capabilities, broadening its customer base, and reinforcing its commitment to delivering high-quality, customized solutions across diverse industries including automotive, aerospace, HVAC, and industrial manufacturing.

“Custom Tube Products has built a strong reputation for craftsmanship, innovation, and customer service,” said **Ken Robinson**, CEO of Elkhart Tri-Went Industrial. “Bringing their expertise into the ETI family allows us to offer even more advanced solutions and faster turnaround times, while continuing to uphold the quality our clients expect.”

The addition of Custom Tube Products' operations will expand ETI's production footprint and add additional advanced CNC tube bending, end forming, and brazing capabilities to its portfolio. The Edgewater and Brevard, NC facility, will continue to operate under the Custom Tube Products name, ensuring continuity for existing customers and partners.

“We're excited to join forces with ETI,” said **David Love**, President of Custom Tube Products. “Their resources and industry reach will allow us to scale our innovations and better serve our customers nationwide.”

The acquisition is effective immediately. For more information, please contact:
